Additional Information

Selection of a Primary Care Provider - Your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.myCignaforhealth.com or contact customer service at the phone number listed on the back of your ID card.

For children, you may designate a pediatrician as the primary care provider.

Direct Access to Obstetricians and Gynecologists - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.myCignaforhealth.com or contact customer service at the phone number listed on the back of your ID card.

Out of Pocket Maximum

Once you reach the individual or family out-of-pocket maximum (non-covered benefits are excluded from this total) in any one calendar year, covered services will be payable at 100% for the remainder of the year.

- Deductibles apply towards the out-of-pocket maximum

Plan Coverage for Out-of-network Providers

- The allowable covered expense for non-network services is based on the lesser of the health care professional's normal charge for a similar service or at 110% of a fee schedule developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule will not be used and the maximum reimbursable charge for covered services is based on the lesser of the health care professional's normal charge for a similar service or supply or the amount charged for that service by 80% of the health care professionals in the geographic area where it is received. Out-of-network services are subject to a calendar year deductible and maximum reimbursable charge limitations.

Precertification Penalty

Pre-authorization is required on all inpatient admissions and outpatient surgery not performed in the doctor's office. Network providers are contractually obligated to perform pre-authorization on behalf of their customers. For an out-of-network provider, the customer is responsible for following the pre-authorization procedures. If a customer does not follow the recommended care plan for obtaining pre-treatment authorization for an out-of-network provider, an ineligible expense penalty of \$250 will be applied.

- Outpatient Surgery
- Skilled Nursing
- Home Health Care
- Renal Dialysis
- Air Ambulance
- Durable Medical Equipment over \$500
- High Cost Drug
- Genetic Testing
- Transplant Evaluations
- Hospital Admissions (including partial hospitalization programs for mental health)
- High Tech Radiology (examples include CAT scans, PET scans and MRIs)

Additional Information

General Notice of Preexisting Condition Exclusion

- This Plan may impose a Preexisting Condition Exclusion (PCE). This means that if you have a medical condition before coming to our Plan, you might have to wait a certain period of time before the Plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis, care or treatment was recommended or received within a three-month period. Generally, this three-month period ends the day before your coverage becomes effective. However, if you were in a waiting period for coverage, the three-month period ends on the day before the waiting period begins. The PCE does not apply to pregnancy or to a child who is enrolled in the Plan within 31 days after birth, adoption or placement for adoption.
- The preexisting condition exclusion does not apply to anyone who is under 19 years of age.
- This exclusion may last up to 12 months from your first day of coverage, or, if you were in a waiting period, from the first day of your waiting period. However, you can reduce the length of this exclusion period by the number of days of your prior "creditable coverage." Most prior health coverage is creditable coverage and can be used to reduce the PCE if you have not experienced a break in coverage of at least 63 days. To reduce the 12-month exclusion period by your creditable coverage, you should give us a copy of any certificates of creditable coverage you have. If you do not have a certificate, but you do have prior health coverage, we will help you obtain one from your prior Plan or issuer. There are also other ways that you can show you have creditable coverage. Please contact us if you need help demonstrating creditable coverage.
- All questions about the PCE and creditable coverage should be directed to your HR/Benefits Director.

Exclusions

What's Not covered (This Is Not All Inclusive; check your plan documents for a complete list)

- services that aren't medically necessary
- experimental or investigational treatments
- accidental injury that occurs while working for pay or profit
- sickness for which benefits are paid or payable under any Worker's Compensation or similar law
- services provided by government health plans
- cosmetic surgery, unless it corrects deformities resulting from illness, breast reconstruction surgery after a mastectomy, or congenital defects of a newborn or adopted child or child placed for adoption
- dental treatments and implants
- custodial care
- sex transformation
- surgical procedures for the improvement of vision that can be corrected through the use of glasses or contact lenses
- vision therapy or orthoptic treatment
- hearing aids
- reversal of sterilization procedures
- nonprescription drugs or anti-obesity drugs
- gene manipulation therapy
- smoking cessation programs
- non-emergency services incurred outside the United States
- bariatric surgery
- infertility services
- treatment of TMJ disorders and craniofacial muscle disorders

These are only the highlights

This summary outlines the highlights of your plan. For a complete list of both covered and not-covered services, including benefits required by your state, see your employer's insurance certificate or summary plan description – the official plan documents. If there are any differences between this summary and the plan documents, the information in the plan documents takes precedence.
